

## THE COUNTER FRAUD CAMPAIGN 2019

### INDEX

PROFIT is the only official travel industry counter fraud body. We work on your behalf to carry out analysis and research, disseminate best practice and disrupt crime.

Find out how you can join the fight against crime. Contact via: [contactus@profit.uk.com](mailto:contactus@profit.uk.com)

### GLOSSARY OF TERMS

<b>ACAS</b>	The Advisory, Conciliation and Arbitration Service	A Crown non-departmental public body of the Government of the UK. Its purpose is to improve organisations and working life through the promotion and facilitation of strong industrial relations practice.
<b>ACFE</b>	The Association of Certified Fraud Examiners	A US organisation of fraud examiners.
<b>ACTION FRAUD</b>		The UK's national reporting service for fraud and financially motivated cybercrime.
<b>COLP</b>	City of London Police	The territorial police force for the City of London (the square mile). The smallest force in the UK.
<b>CPNI</b>	Centre for the Protection of the National Infrastructure	The United Kingdom government authority which provides protective security advice to businesses and organisations across the national infrastructure.
<b>CSP</b>	Content Security Policy	A computer security standard introduced to prevent cross-site scripting, clickjacking and other code injection attacks resulting from execution of malicious content in the trusted web page context.
<b>DDoS</b>	Distributed Denial of Service Attack	Cyber-attack in which the perpetrator seeks to make a machine or network resource unavailable to its intended users by temporarily or indefinitely disrupting services of a host connected to the Internet.
<b>DKIM</b>	DomainKeys Identified Mail	An email security policy that stops the contents being altered during transit.
<b>DMCA</b>	Digital Millennium Copyright Act Services	A service that criminalizes production and dissemination of technology, devices, or services intended to circumvent measures that control access to copyrighted works.
<b>DV</b>	Domain Validation	An X.509 digital certificate typically used for Transport Layer Security where the domain name of the applicant has been validated by proving some control over a DNS domain.
<b>EV</b>	Extended Validation Certificate	An SSL certificate conforming to X.509 that proves the legal entity of the owner and is signed by a Certificate Authority key that can issue EV certificates.
<b>FBI</b>	Federal Bureau of Investigation	The domestic intelligence and security service of the United States and its principal federal law enforcement agency.
<b>FCA</b>	Financial Conduct Authority	The conduct regulator for 59,000 financial services firms and financial markets in the UK and the prudential regulator for over 18,000 of those firms.
<b>GCA</b>	Global Cyber Alliance	An international, cross-sector body dedicated to eradicating cyber risk and improving the connected world.
<b>FIN</b>	Fraud Intelligence Network Ltd	A private company that operates the FIN Intelligence System
<b>HMIC</b>	Her Majesty's Inspectorate of Constabulary	The independent inspection body that assesses police forces and policing, asking the questions that citizens would ask and publishing information to allow the public to compare the performance of their force against others.

<b>HTML</b>	Hyper Text Markup Language	The standard mark-up language for documents designed to be displayed in a web browser.
<b>HTTPS</b>	Hypertext Transfer Protocol Secure	A protocol used to provide security over the Internet. A website conforming to the HTTPS protocol shows a green padlock in the site identity button to the left of the address bar and has the letter 'S' after the abbreviation HTTP both of which designate that it is secure.
<b>ICANN</b>	The Internet Corporation for Assigned Names and Numbers	A non-profit organization responsible for coordinating the maintenance and procedures of several databases related to the namespaces and numerical spaces of the Internet, ensuring the network's stable and secure operation.
<b>ISP</b>	Internet Service Provider	An organization that provides services for accessing, using, or participating in the Internet.
<b>JavaScript</b>		A high-level, just-in-time compiled, object-oriented programming language that conforms to the ECMAScript specification.
<b>JMLSG</b>	Joint Money Laundering Steering Group	A body formed from financial services trade bodies in the UK which promotes best practice to counter money laundering.
<b>KYC</b>	Know Your Customers	The process of a business verifying the identity of its clients and assessing their suitability, along with the potential risks of illegal intentions towards the business relationship.
<b>MFA</b>	Multi-Factor Authentication	More than one level of authentication to gain access to
<b>MITM</b>	Man-In-The-Middle Attack	Data theft occurring when you send data across the internet and an unauthorised third person in between you and the recipient intercepts it.
<b>NCA</b>	National Crime Agency	The UK agency against organised crime; human, weapon and drug trafficking; cybercrime; and economic crime that goes across regional and international borders
<b>NFIB</b>	National Fraud Intelligence Bureau	Operated by the COLP the NFIB helps the police and their partners catch and disrupt criminals and make the UK a more fraud-resistant society, by alerting our communities to threats from fraud and working together to prevent crime occurring.
<b>OV</b>	Organisation Validation	The standard type of certificate required on a commercial or public facing website. OV certificates conform to the X.509 standards and thus contain all the necessary information to validate the organization.
<b>OCG</b>	Organised Crime Group	A category of transnational, national, or local groupings of highly centralised enterprises run by criminals to engage in illegal activity, most commonly for profit. Some criminal organisations, such as terrorist groups, are politically motivated.
<b>PROFIT</b>	Prevention of Fraud In Travel Ltd	A not-for-profit company that specialises in disrupting crime, carrying out research and analysis as well as designing crime out of all business types.
<b>PHP</b>	Hypertext Pre-Processor	
<b>SSIDs</b>	Service set Identifier	The name assigned to a wireless network using case sensitive characters strings up to 32 characters in length.
<b>SHODAN</b>	Sentient Hyper-Optimised Data Access Network	A search engine type which can identify unsecured devices.
<b>SMTP</b>	Simple Mail Transfer Policy	The protocol that allows emails to be sent and received across the internet
<b>SPF</b>	Sender Policy Framework	E-mail return path value validation policy
<b>SQL</b>	Structured Query Language	A domain-specific language used in programming and designed for managing data held in a relational database management system, or for stream processing in a relational data stream management system.
<b>SSL</b>	Secure Sockets Layer	A cryptographic protocol designed to provide communications security over a computer network.
<b>TLS</b>	Transport Layer Security	TLS has now largely replaced SSL as a cryptographic protocol designed to provide communications security over a computer network.
<b>VPN</b>	Virtual Private Network	An extension of your own private network across the public network enabling users to send and receive data across shared public networks as if they were directly connected to their private network.
<b>XSS</b>	Cross Site Scripting	A general-purpose programming language originally designed for web development.

## RECOMMENDED PLACES TO OBTAIN SUPPORT & INFORMATION

<p><b><u>CPNI</u></b> A source of free expert guidance on cyber security matters</p>	<p><a href="https://www.cpni.gov.uk">https://www.cpni.gov.uk</a></p>
<p><b><u>Digital Millennium Copyright Act Takedown</u></b> A service that badges, protects and takes down copies of your website</p>	<p><a href="https://www.dmca.com/faq/What-is-a-DMCA-Takedown">https://www.dmca.com/faq/What-is-a-DMCA-Takedown</a></p>
<p><b><u>GCA Small Business Toolkit</u></b> Use the GCA Cybersecurity Toolkit to assess your security posture, implement free tools, find practical tips, and use free resources and guides to improve your company's cybersecurity readiness and response.</p>	<p><a href="https://gcatoolkit.org/smallbusiness/">https://gcatoolkit.org/smallbusiness/</a></p>
<p><b><u>National Cyber Security Centre</u></b> Official advice and solutions from GCHQ on many aspects of cyber security and vulnerabilities</p>	<p><a href="https://www.ncsc.gov.uk/section/advice-guidance/all-topics">https://www.ncsc.gov.uk/section/advice-guidance/all-topics</a></p>
<p><b><u>Netsparker</u></b> (Free community edition and trial version available). Good for testing SQL injection and XSS.</p>	<p><a href="https://www.netsparker.com/web-vulnerability-scanner/">https://www.netsparker.com/web-vulnerability-scanner/</a></p>
<p><b><u>OpenVAS</u></b> Claims to be the most advanced open source security scanner. Good for testing known vulnerabilities. But it can be difficult to setup and requires an OpenVAS server to be installed which only runs on *nix</p>	<p><a href="http://www.openvas.org">http://www.openvas.org</a></p>
<p><b><u>SecurityHeaders.io</u></b> (free online check). A tool to quickly report which security headers mentioned above (such as CSP and HSTS) a domain has enabled and correctly configured</p>	<p><a href="https://securityheaders.com">https://securityheaders.com</a></p>
<p><b><u>Symantec Endpoint Protection</u></b> Norton Internet Security and Symantec Endpoint Protection are both security software suites made by the same company, Symantec, but aimed at different audiences. Many of the security features are very similar or identical across the two suites. The website has a number of free resources available.</p>	<p><a href="https://www.symantec.com/en/uk/security-center/threats">https://www.symantec.com/en/uk/security-center/threats</a></p>
<p><b><u>Xenotix XSS Exploit Framework</u></b> A tool from OWASP (Open Web Application Security Project) that includes a huge selection of XSS attack examples, which you can run to quickly confirm whether your site's inputs are vulnerable in Chrome, Firefox and IE</p>	<p><a href="https://xenotix.in">https://xenotix.in</a></p>
