

Members of TUFF represent a broad cross section of the telecommunications industry both fixed and mobile.

Dear Colleague,

We welcome your interest in membership of TUFF.

TUFF provides a unique opportunity and experience for the security and fraud professionals to learn from their peers as well as expand their own personal knowledge of fraud techniques employed by criminals to defraud communication service providers and other businesses.

I am encouraged by the way TUFF have faced the many challenges of the past decade and, through this, has provided the point of contact where fraud and security professionals can be assured of finding an answer to many of the questions that face them on a day-to-day basis.

I hope that your initial enquiry about membership of the Forum is followed through by taking out the level of membership that most suits yours or your company's profile. If this is not possible then what I would ask is that you join with us in fighting fraud wherever it occurs.

Andy Beet, TUFF CEO.
